OPPORTUNITIES CREATED

WORK IS WHERE THE BOXOFFICE IS

Perhaps you don't have a dedicated work-space in the house - **BOXOFFICE** can be installed anywhere - to make the most of under utilised spaces.

BOXOFFICE converts wasted space into new workspaces - inside/outside existing dwellings. Your own work-space where work and home-life can overlap seamlessly.

BOXOFFICE can come pre-assembled or flat packed to be assembled on site - the parts can all fit through a standard door.
